

MOTORIZED DRAPERY SYSTEMS**SlimLine Motorized Drapery System**

Sleek & Slim motorized drapery track that can be easily curved to meet your installation requirements. Spans up to 19' unspliced and pulls up to 135lbs of fabric with single motor.

**SlimLine****Features:**

- Slim profile track with only 8" bending radius.
- SlimLine system can be built with either low voltage plug-in or battery powered Finesse motor
- **SlimLine track is available in the following powder coated colours: white, black and aluminum, can be custom painted.**
- 2 & 6-channel RF remote controls & 4-channel RF wireless wall switch work with every Finesse drape & shade system.
- Built-in contact closure port and additional RS485 interface on HD motor are available for direct connection to any building management system.
- Now offers Z-Wave+ technology for SmartHome & Voice control.
- Integrates with major automation systems.

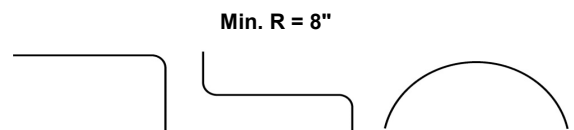

**Specifications:**

	Finesse HD	Finesse Mini	Finesse Li-ion
- Rated Power:	24VDC/1.5A	24VDC/1.5A	12.6VDC/0.8A
- Rated torque:	2Nm	1.2Nm	1.0Nm
- Max Pulling Capacity	135lbs	100lbs	80lbs
- Track profile:	3/4" x 3/4" aluminum extrusion 6063 T5		
- Transmission:	6mm polyurethane thermoplastic timing belt reinforced w/Kevlar cords		
- Maximum system width unspliced:	232"		
- Maximum load capacity:	2lbs per carrier / Up to 135lbs total capacity (depends on track width - please refer to capacity tables)		
- Bracket spacing:	20" standard (16" at stack recommended)		
- All KS brackets applicable			

SlimLine system can be built for use with Somfy or Lutron motors.

Bending / Curving:

Tracks can be curved to precise specifications, including single, multiple and reverse curves. Template required for bending - please refer to page 7 of this catalogue for instructions.
Minimum radius for curve: 8"

Please contact customer service for quotation

For applications requiring higher pulling capacity please refer to Finesse Motorized Drapery system.
